Hi Jim,

That's a complicated question. Government Scientific can get any controlled substance from Alltech, Cerrilant, Cayman etc and class E substances from Sigma. Sigma will not sell JR federally scheduled I or II drugs. I'm not sure about scheduled III or IV. If you want something from USP, you must use Lab 2006 since their still on that contract. Alltech did not renew themselves as a vendor on Lab 2006 but they will sell to JR. At the moment, Debie is allowing this even though there could be a legal question with JR reselling the drugs. I asked DEA for an official ruling over a year ago but they have not responded. If you have any specific question just let me know.

Hi Peter,

How have you been ordering your drug standards? Do you go through GovSci?
